

**Start your career with an apprenticeship - earn while you learn!**

## STARTING WITH A TECHNICAL CERTIFICATE

Incorporating electrical / mechanical engineering i.e. \*Business and Technology Education Council (BTEC) Level 3 Diploma in Electrical/Electronic Engineering or the City & Guilds (C&G) Level 3 Certificate in Electrotechnical Technology.

\* Technical certificate will vary depending on your chosen/local college

### CHOOSE YOUR PATHWAY

For the first year of your technical certificate you will attend college one day a week. To gain an understanding of your chosen path you will be working alongside a fully qualified engineer, who will offer support throughout your apprenticeship.

#### LIFTS

**NVQ Level 3  
Lift Maintenance**

#### ESCALATORS

**NVQ Level 3  
Escalator Installation and  
Commissioning**

#### MOBILITY

**NVQ Level 2  
Stairlift, Service Lift and  
Lifting Platforms**

#### LOADING SYSTEMS

**NVQ Level 2  
Specialist Installation Occupation -  
Door and Shutter Systems, Repair  
and Loading Bay Equipment  
Installation or Maintenance**

Throughout your third year you will be collating evidence and growing your portfolio

By your fourth year you will be a qualified engineer and will be allocated your own van and a small service route

PICKERINGS LIFTS

## Thinking about an apprenticeship?

Here at Pickering's Lifts, we are proud to be celebrating over 160 years in motion that has seen us become one of the UK's leading independent lift specialists. Our success is down to the people we employ - since the company was founded apprenticeships have been integral to our business.

An engineering apprenticeship lasts for four years and is a great route into employment to start your career!
